

BUAD 3000—Integrated Skills for Management
Session 7

PREWORK FOR SESSION 10

Case Studies in Ethics—Team Exercise

- All teams should prepare a ~10-minute presentation (including PowerPoint presentation similar to the model presented in this email) providing the following information:
 1. Overview of case and relevant facts.
 2. Who are the primary “stakeholders”?
 3. What are the ethical (which, if any, of our 4 “ethical decision-making criteria apply) and/or legal issues? NOTE: You’ll need to wait on this until Session 10.
 4. What is the “right” thing to do?
 5. What are the ethics of the actions you could/should take? (again, apply our “Big 4”)
 6. What are the practical constraints (i.e. the “real world” vs. philosophical)?
 7. What actions will you take? Why?
 8. Take a vote on #7 (How close to unanimous was your team?)
